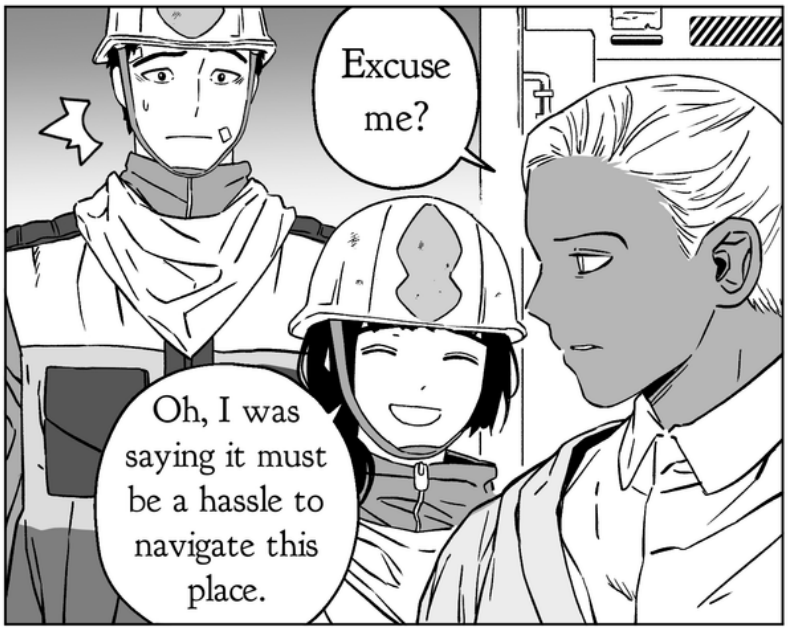
...It's a damn labyrinth here.
Mumble



Excuse me?
Oh, I was saying it must be a hassle to navigate this place.

You gotta be careful not to get lost.
PAT

This guy here,
He used to go off track all the time in the 'streets during internship.
Haha...! Yeah...! I'm kind of bad with directions...

Really now.

Well,
If you're not familiar with the geography...
I suppose that sort of thing could happen.

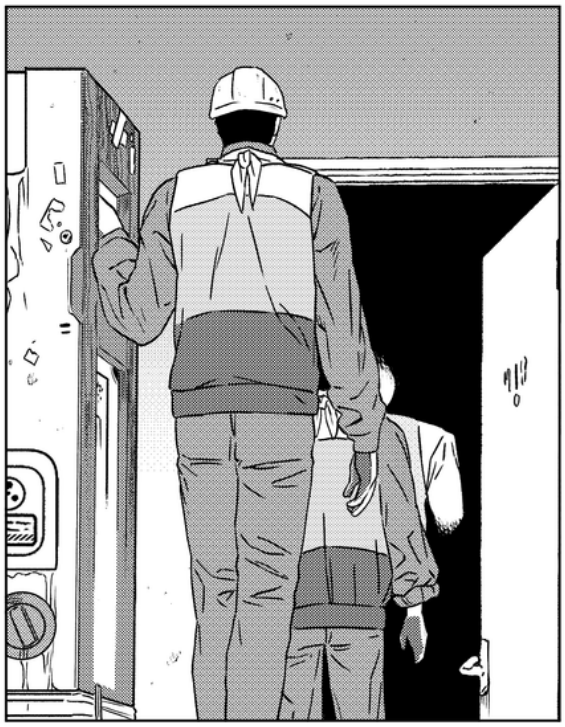
Please, come on in.



Aight.
We've pinned down the location.

Denver's working her ass off with the mental keywords.

Seems the signal's getting weaker from here on.

I hear a sound...

Must return home...
It's all fated to break in the waves...
Stumble

I can't...
Breathe up here...
...Help. Me.

Tsk
Should've worn your earplugs.
It was right there in the instructions.

Oh well...
Nanseul, we gotta finish up—
...?!

SLIP

Really?
I showed you how to wear them, too.

...
Guess I'll have to finish it up myself.

Got enough space.

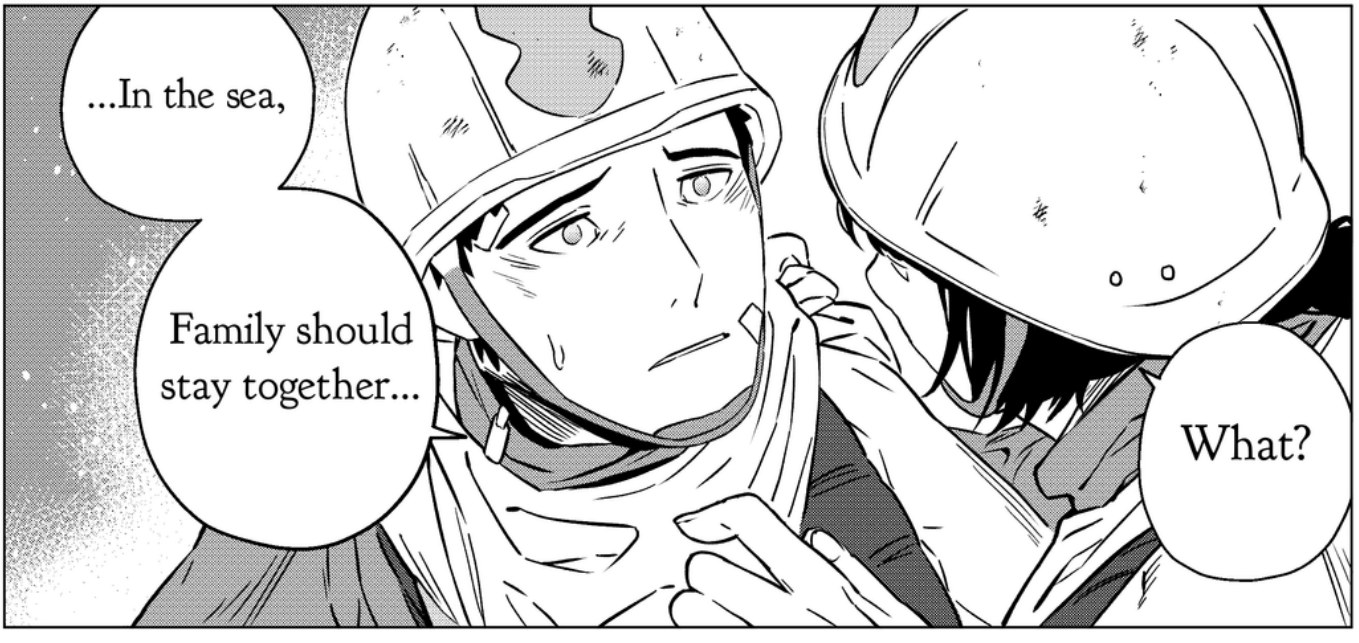
It's alright.
I read that it'll get better after a short wave of hiraeth.



...In the sea,
Family should stay together...
What?

Pat
...Just sit tight and calm down.

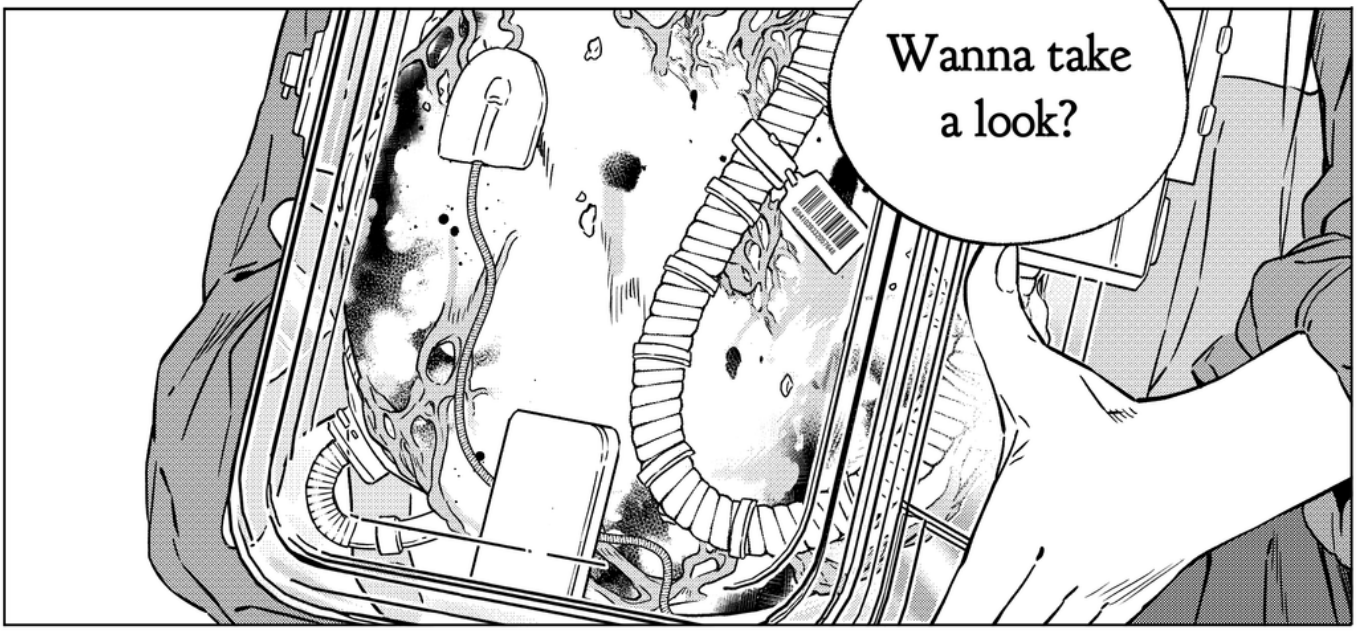
Um...
Hey...
I...
Came since I saw someone choking outside...

Is it all done with now?
...So uhm...

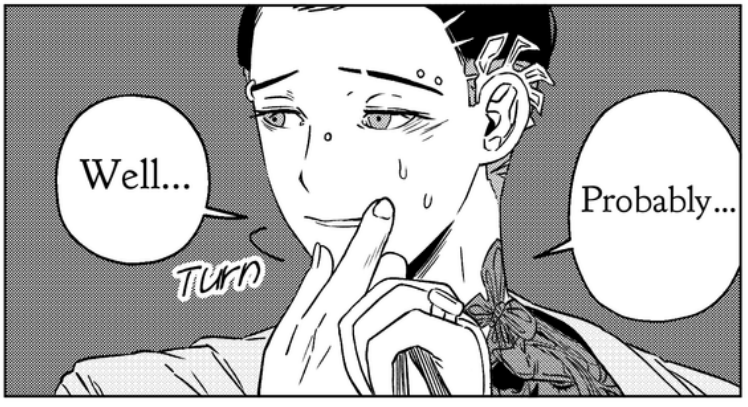
Done and done~!
SHOVE
All finished!
Without a hitch.
PLOP



Wanna take a look?

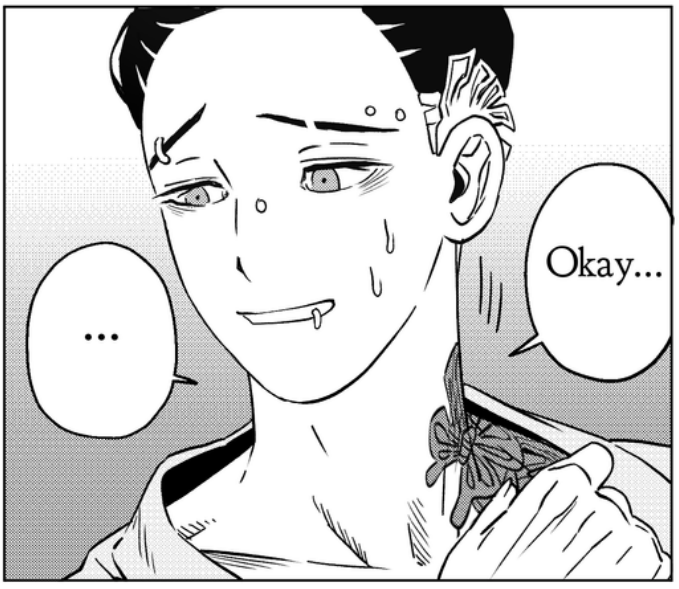
What do you say?
It's... thick, as expected.

Sure it works just as well.
I hope you'll use our service again.

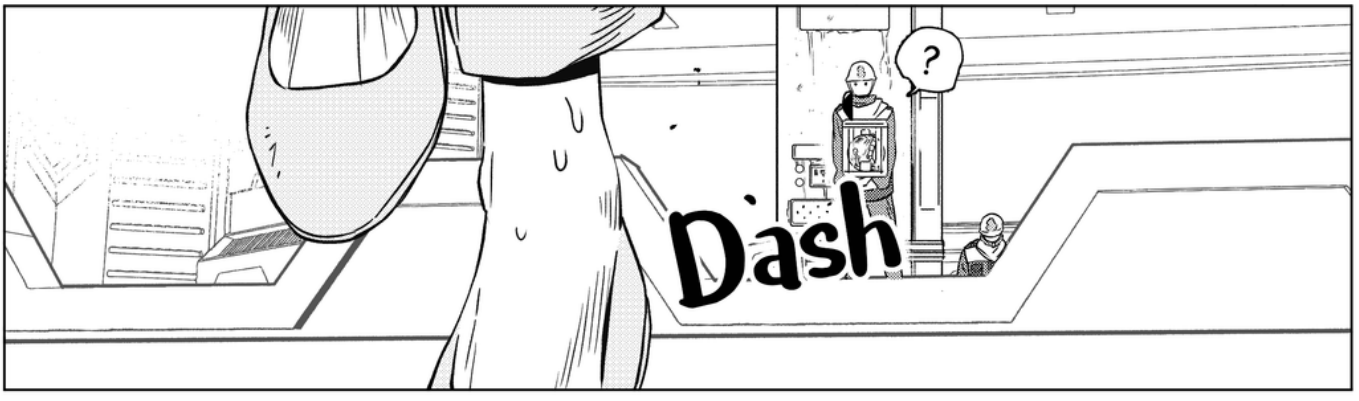


Well...
Turn
Probably...

Well then, we'll clean up—
And help with the rest of the installation.



Okay...
...



?

...Ah.

Back to your senses finally?

We've got cleaning to do.
It's only just getting started, so don't let your guard down.
...Sorry.
Don't sweat it. Just do it right next time.

...Ma'am.
Hmm?
Let's say...
If you were a river meandering along a course,
And if you met a stream to the sea...
What would you do?

What're you on about.
Still lost in the sauce?
Should give your head a good smack...
...

...I, wouldn't go.
I'm not the type to mingle with others...
If I had to say.
